Dear friends and customers,

I am pleased to present my new catalogue. Most of my book stock was gathered in the last 20 years and contains many rare and seldom offered items. I hope you will find something of interest in this catalogue, otherwise I am in the position to search any book you find difficult to obtain. Please send me your want list. I am always interested in buying books, journals or even whole libraries on all fields of science (zoology, botany, geology, medicine, archaeology, physics etc.). Please offer me your duplicates.

Terms of sale and delivery:

We accept orders by mail, telephone, fax or e-mail. All items are offered subject to prior sale. Please do not forget to mention the unique item number when ordering books. Prices are in Euro. Postage, handling and bank costs are charged extra. We are required to charge our EU customers 6% VAT (TVA, BTW) unless they possess a VAT registration number and live outside of the Netherlands (please quote your VAT number when placing orders!). Books are sent by registered surface mail (unless we are instructed otherwise) upon receipt of payment. Confirmed orders are reserved for 30 days. If payment is not received within that period, we are in liberty to sell those items to other customers. If you pay by cheque we have to add € 10,- bank charges. Return policy: Books may be returned within 7 days, provided we are notified in advance and that the books are well packed and still in good condition. Full refund.

GG08214 **BABBAGE, C., 1847.** €675,00

Observations on the temple of Serapis at Pozzuoli near Naples, with an attempt to explain the causes of the frequent elevation and depression of large portions of the earth's surface in remote periods, ... continue in action at the present time; 42, [4] p., 6 figs, 2 double lithographed plates (one partly handcoloured), embossed and decorated original red cloth (with gilt motif of temple on front cover). The front free end paper is signed Dugal B. Babbage. The rare privately published account.

Charles Babbage (1791-1871) was an English mathematician, philosopher, mechanical engineer and (proto-) computer scientist who originated the idea of a programmable computer. Babbage originally presented his observations on the Serapis temple in 1834 at which time an abstract of the paper appeared in the Proceedings of the Geological Society (1835). He did not publish the work until 1847 when it appeared in the journal and also was separately privately printed. It is the first full presentation of Babbage's theory of the movement of isothermal surfaces within the earth
